

McKesson Practice Choice™

Simplify Processes to Enhance Patient Touch

McKesson Practice Choice is a cost-effective Web-based electronic health record (EHR) and practice management (PM) solution inspired by small, independent medical offices just like yours. We built it from the ground up to address the daily challenges faced by small practices that don't have the luxury of dedicated IT staff. Intuitive and efficient, McKesson Practice Choice does more than maintain records and protect cash flow; it has the power to improve the quality of your patient interactions.

When care is your priority and independence is your choice

With 20+ years delivering PM and EHR technology to the small practice, McKesson knows what you need to run your medical office smoothly while maintaining your patient focus. We invested heavily and organically built McKesson Practice Choice to suit the specific needs of smaller offices. Leveraging the latest Microsoft® technologies, we spent time observing you in your workspace and tailored the software design and screen layout to deliver a consistent experience despite the multiple hats you wear and tasks you complete throughout the day.

Subscribe to cost-effectiveness

With McKesson Practice Choice, you're not just getting an EHR/PM product — you're benefiting from a comprehensive solution that complements your independence. As a Web-based subscription service, there are no costly servers to maintain, no IT staffers to hire and no backups to schedule. Simplify your administrative overhead and learning curve with just a single solution integrating EHR, PM, patient portals, e-prescribing and claims. Simply log on to our secure system to access and manage your practice's data. Updates and upgrades to the program will stream automatically to your computers, so manual reinstallations are never required.

YOUR WORKFLOW-CASH FLOW-DATA PARTNER

McKesson is familiar with the ways clinical and business operations overlap in the small-practice environment. That's why McKesson Practice Choice integrates your office's primary functions, connecting data and streamlining practice-wide processes in one easy-to-use system.

THE WORKFLOW EFFICIENCY CHOICE

- Intuitive interface makes it easy for anyone to learn and use
- Check-in procedures are simplified and require less staff time
- Electronic prescription ordering and pharmacy or patient-requested renewal systems help ensure patient safety yet streamline the process
- Well-documented patient records are accessible from any Web-enabled computer
- Save time eliminating paper lab results via an electronic connection
- Enhance patient touch with in-hand or Web-published clinical summaries

THE CASH FLOW CHOICE

- Use a ONC-ATB certified system to enable Meaningful Use dollar submission
- Check patient eligibility in real time to guarantee reimbursement
- Ensure provider-recommended procedure regimens are performed to benefit patient health and encourage visit volume
- Improve collections by taking visit and account payments at check-in
- Embedded Claim/ERA services w/auto-posting keeps cash moving

THE OPERATIONAL DATA CHOICE

- Speedily generate patient lists and reminders to communicate with the right audience
- Benchmark yourself with built-in Performance and Clinical Quality Measure Dashboards
- Interrogate your financial health with comprehensive reporting

Ease into electronic note-taking

You compose your progress notes carefully, which is why we've carefully constructed the Smart Note technology that powers McKesson Practice Choice. It allows you to document on a single screen while pulling and pushing data from anywhere in the patient's chart. Search codes using natural terminology and view cross-sectional chart summaries. Everything you enter automatically flows data into all pertinent fields throughout a chart. You can even create a template that suits your note-taking preferences. You'll spend less time charting and more time interacting with your patients.

The choice is simple

You and your staff need tools that simplify processes, not complicate them. McKesson Practice Choice is as easy to learn as it is to use because it's designed to do exactly what small practices need it to do. There's no complex training module, and its built-in features are intuitive, even to those who are new to electronic systems. You'll get up to speed quickly, then immediately be able to put the software to work on your practice's behalf.

Take the next step

Start putting McKesson Practice Choice to work for your practice and your patients. Learn more online or contact your local McKesson representative to schedule an appointment for an in-office demonstration. We look forward to the opportunity to help you better serve your patients.
